Caddo Sheriff's Office issues warning to Caddo Lake boaters

Wednesday, March 11, 2015

The Caddo Office of Homeland Security and Emergency Preparedness advises that Caddo Lake is expected to crest at 174 feet sometime over the weekend. Piers, boat houses, and homes near the water face significant flooding. Boaters should be cautious near residential areas and slow down. Also watch out for channel markers which may now be under water.
