Three arrested after discovery of north Caddo meth labs

Monday, November 9, 2015

Three people were arrested Friday after evidence was discovered of a meth lab operation in the 600 block of Jenkins Road in Shreveport.

Caddo Sheriff Steve Prator and Shreveport Police Chief Willie Shaw said the arrests followed a tip to the Caddo-Shreveport Narcotics Task Force that a suspect was manufacturing methamphetamine at a residence located at 618 Jenkins Road in north Caddo Parish. Agents searched the residence and located two inactive one-pot meth labs. Agents also located chemicals and precursors necessary for the manufacture of methamphetamine.

Sharee Booth, 59, who lives at the residence, and Virgil Kreidel, 40, of Shreveport, were arrested at the house and booked into Caddo Correctional Center on two counts each of creation/operation of a clandestine lab. Another resident, Lacie Lynn Booth, 34, was arrested at her place of employment and was booked into CCC for manufacturing schedule II narcotics.

Three agents suffered difficulty breathing after entering the home where the labs were located. They were transported to a local hospital where they were treated and released.

The investigation is continuing, and additional arrests are expected.
