# Caddo residents asked to make timely damage reports

Sunday, March 13, 2016

Caddo Sheriff Steve Prator is asking Caddo residents who know they have interior property damage to make an initial report as soon as possible.

"We will use this data to support our application to the federal government to receive aid," the Sheriff said. "All we need to know is whether you have damage. We do not need to know the dollar amount of those damages. So if your home has water inside, contact us."

The number to call is 675-2255 or you can report online at reportdamages@caddosheriff.org.
