Skull found in Keithville

Friday, March 18, 2022

Detectives, K-9, CSI and coroners all worked together to investigate following the discovery of a human skull in Keithville on Friday, said Sheriff Steve Prator.

Just after 12 p.m., Caddo Parish Sheriff's Office responded to a wooded area off Colquitt Rd. near Haywood Rd. where the skull was found. According to CPSO Detective Vincent Jackson, it appears the skull has been left in the area for several months. A cadaver dog combed the area in search of any other human remains but found nothing.

The Caddo Coroner will send the skull to the FACES lab to be identified.
