Student arrested for threatening teacher on Facebook

Wednesday, April 6, 2011
Caddo sheriff's deputies arrested a 14-year-old boy for posting threatening text messages on his teacher's Facebook page, said Caddo Sheriff Steve Prator.

The student used another student's name to create a fake account in order to send the messages to the teacher because he allegedly received a bad grade in her class.

The student was arrested for cyberstalking and released to his parents following an investigation by Detective Robert Greer.
